

# Fort Scott Community College

## Program of Study

# Business

Business programs prepare students to enter the job market in a variety of general and specialized professional areas: business communications, sales management, personnel management, small business management and accounting. Programs are flexible enough to allow students to finish associate degree programs with entry-level skills, or to transfer to a four-year college or university.

Classroom instruction and actual work experience blend the academic and the practical to prepare students for challenging work opportunities.
