

Fort Scott Community College

Program of Study

Cosmetology

Associate of Applied Science

Students interested in the Associate of Applied Science degree in Cosmetology will need to meet the entrance requirements of the Cosmetology Certificate program.

Cosmetology is an interesting and well-paying career. Men and women in this occupation work as salon managers, stylists, color technicians, manicurists, demonstrators, beauty consultants, makeup artists or as wig specialists. FSCC uses the internationally acclaimed Pivot Point curriculum. Pivot Point uses a system of interactive learning materials and workbooks to teach the latest methods in hair care and styling. Pivot Point is a service mark and trademark owned by Pivot Point International, Inc. Operating under the close supervision of the Kansas State Board of Cosmetology, the FSCC program has established a reputation of excellence in instruction and quality of graduates.

Students may elect to continue their education beyond the initial one-year professional component. By adding the general education component, a two-year Associate of Applied Science Degree may be earned in this field of study. This option has the advantage of building additional business and communication skills important to employment and business ownership.

Students may combine their credit hours (44) with the following general education requirements to receive an Associate of Applied Science Degree.
